

PARENT ROLE & RESPONSIBILITIES

It is important for parents to be involved as their child prepares for WWW. Parents become a cheerleader and offer encouragement for their child as they embark on this important experience. Preparing for WWW is a wonderful opportunity for parents to talk about the trip and the growth opportunities ahead.

STAY INFORMED

The best way parents can support their child is to stay informed and engaged. Parents should attend parent meetings and refer often to the trip specific pages that are managed by trip leaders. These pages are a key resource for parents and students as they prepare for WWW. Each page contains important information such as schedules, packing lists, trip itinerary, important announcements and upcoming parent and student meetings.

PARENT RESPONSIBILITIES

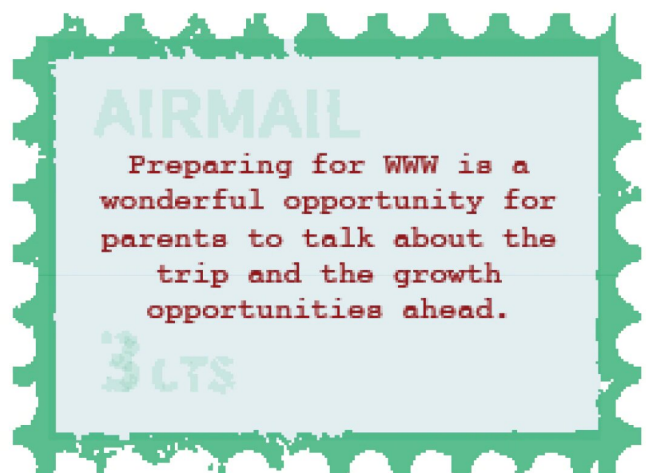

Parents are integral to their child achieving success and personal growth during WWW. Parents can assist their child by:

- Attending the information sessions.
- Assisting their child in making the trip decision that best supports their strengths.
- Supporting the teachers/organizers by encouraging their child to value and make the most of their trip/event.
- Supporting the eligibility requirements as outlined below.
- Ensuring that all forms and funding are processed prior to the due dates
- Understanding that WWW is a compulsory part of the UAS curriculum and beneficial to their student's learning needs

PASSPORT AND VISA REQUIREMENTS

For international trips, students must have a passport with at least 6 months of validity remaining from the return date of their trip. Non Emirati students will also require a valid residency visa.

Depending on nationality, visas will be required for those students travelling internationally. As this cost can vary dramatically between nationalities it has not been included in the cost of the trip. The school will provide as much information as possible for obtaining the necessary visas; however, obtaining visas is ultimately the responsibility of the parent.

FINANCIAL RESPONSIBILITY

Parents are responsible for funding their child's WWW activity. The cost of each International trip ranges from AED 8000 - 10500. The cost includes airfare, accommodations, food and trip activities. The Local Overnight camps and Local Day activities range in price from 1,000 to AED 5,000. A first deposit is due in October for ALL trips and activities, and the remaining balance is due in early December.

All fees are paid directly to providers.
